Don't Forget

- 6 July** **Aircraft Structures and Daily Inspection Course.**
7.30pm Margaret Murray Room
- 9-17th July** **Ridge Flying Camp in Second Week of Holidays.**
Call Catherine Conway for more info.

From the President

Hello Everyone,

Since Scott has been exiled to Whyalla for work reasons (again!) I am acting newsletter editor this month.

Congratulations to Scott and Simon for completing their 5 hour flights and to Greg for converting to the Astir CS at the Grampians.

The weather has been very good to us lately and we have had lots of good ridge flying. Now that exams are over, you should come and join in the fun. Ridge flying gives the opportunity for longer training flights and your flying can progress at a faster rate.

On the down side, we need more helpers at West Beach to assist with aircraft maintenance. The club is currently conducting the 30 yearly inspection of the Arrow sailplane. Since this is the first single seater used by new solo pilots, trainee pilots should have a vested interest in it flying again soon. Especially given the current weather! A map of how to get to the Inspection shed at West beach is enclosed later in this issue.

For those interested in doing more flying, we will be running a camp in the second week of holidays. More details on this and other coming events are outlined below.

Safe Flying....

Catherine Conway

AUGC Calendar

Wednesday 6th July 1994

Aircraft Structures and Daily Inspectors Course

As well as flying training, the club also conducts airworthiness training. This course is an introduction to airworthiness and is aimed at all pilots who do not yet have a DI rating as well as serving as a refresher course for those that do.

Saturday 9th July to Sunday 17th July 1994

Ridge Flying Camp!

A great opportunity to improve your flying. Great progress can be made at camps as well as a lot of fun. Accommodation is available in the clubhouse. Call Catherine Conway 290 1921 (wk) or 43 7535 (home) for more info.

Saturday 16th July 1994

Lamb (or Pig) on the Spit at Lochiel

This a usually a popular event and is being held on the last evening of the flying camp. Come along and support your club!

Please report any incorrect information to the
Treasurer (D. Medlow) on 336 6662.
Club contact person is Scott Battersby.

The Treasurer Speaketh ...

Since the last newsletter nobody has been by to offer me any negotiable currency in order to deter me from producing another newsletter report, so here we go again ...

Yes you probably noticed the intentional error in the last report referring to the enclosed membership list. This was entirely the fault of the newsletter editor because he didn't print the list that I failed to give him. There should be one this time around, but if not, consider it a virtual list (the kind that you know you have but can never find when you really need it). There is also a list kept up at Lochiel which I check regularly so if you find an error on it please write in a correction and it will be fixed.

May

May was a nice month. The kind of month that accountants tend to call 'profitable' (except of course if the person they are calling it to is the Tax Office in which case it is a 'marginal increment in liquid assets due to operating surpluses not countered by forward depreciating items'). As you may recall April was not a nice month and we started May with \$ -291 in the bank (i.e. overdrawn). We received \$ 5,280 (of which \$ 2,132 was a grant payment from the Sports Association) and spent \$ 2,582 on the Arrow refit, clubhouse food, loan and ground fee payments and building material. That left us with \$ 2,407 to take us into June. In June we have an aircraft insurance payment (over \$ 1,200) and another loan payment to make so we need as much revenue as we can get.

22/5

This day was particularly nice, some would say extremely nice (I wouldn't say this as I wasn't on field at the time). The aircraft logged over 41 HOURS flying in one day. If we had the Arrow on field we could have flown even more so we need volunteers to work on the aircraft at West Beach.

Flight Sheets

The flight sheet is our official record of the flight times for the aircraft logbook and the only mechanism by which the Club charges members for flying. With this in mind could I please ask that members take care in completing the sheet when on field. Whilst it is nice to know that Fred had a 20 minute flight it would be nicer to know WHICH Fred so please include the surname with each flight. It is also important to note down all the payments made, particularly from non-members or passengers, again with their surnames please. For those of you that can't add up without the aid of a mainframe computer (and there are some of you that can't) please DON'T fill in the duration column. Some flight sheets have had times that were up to 50 minutes out.

New GFA Members

I have now been sent the GFA Fee Schedule for members wishing to join GFA part way through a year. For those that do you pay pro-rata based on how many months remain until next March (when all memberships are due). Please see me if you have any enquiries regarding this.

Until next month.

D. Medlow
AUGC Treasurer

PS : This report has a secret message encoded within it. If you cut this out and play it backwards in your CD player you hear the words "please pay for your flying on the day" repeated over and over again by a Tibetan monk.

SO YOU WANT TO FLY THIS WEEKEND

Ring Scott Thursday night between 8:00pm and 10:00pm. It's real important that you call me, so that I can organise instructors and transport for everyone. You'll look pretty silly turning up to the airfield by yourself if flying is cancelled for that day. Also, we don't forget that we have a lot of members without cars, so let me know if you can help with a lift.

For those of you without cars, if you want a lift we can pick you up on Saturday or Sunday morning from the University Footbridge (at the Uni end, by the traffic lights) at 7:00am, or from the Caltex Service Station on Port Wakefield Road, Bolivar (just past the White Horse Inn) at 7:30am.

SO YOU WANT TO HELP MAINTAIN CLUB GLIDERS

Airworthiness work takes place at the West Beach Inspection Shed, at the end of Foreman St West Beach every Monday to Thursday night from 8:00pm. Remember the club can train you in airworthiness work as well as flying.
