**HAZARDS**

Trees at end RWYs 11, 29 and 05. Church & trees on approach RWY 05. Gully near threshold of RWY 16L. Wheel ruts across threshold of RWY 16R.

LH & RH CCTS acceptable on all RWY – watch for conflicting ACFT when turning on to APCH.

Fence across approach to all RWY. Wildlife (kangaroos, emus, wombats etc.) may be present on AD.

Numerous stones on AD SFC, conduct run ups with caution. Avoid blowing dust on other airfield users and neighbouring properties.

WINCH LAUNCHING conducted - cable may extend to 2,500 FT AAL. Arrange circuits to keep crosswind, downwind and base legs outside the AD boundary to minimise potential conflict with winch launches. Aero-towing and self-launching GLD FLT's also occur at AD.

Be aware unpowered GLD will be moved off RWY by vehicles and persons after LDG.
